

**YORK TOWNSHIP TRUSTEES**

Richard Monroe  
Special Meeting

William Pavlick

Todd A. Zieja

January 25, 2018

Chairman Rick Monroe called the special meeting to order at 5:30 p.m. He led the pledge of allegiance.

Present: Chief Ken Barrett, Ron Eckart, John Kollar and Ryan McDonnell from the Fire Department; Dorothy Crouch, Dave and Debbie Hull and Eric from AHEC's.

Todd asked why we were paying for double internet as well as others. Rick talked to Ryan McDonnell from the fire department for needs. Ken Barrett then asked about presenting plans for the fire department because the future needs of the department far out-weigh the township's and what we currently have.

The fire department presented a plan to the trustees. Ken then explained the procedure for the paperwork for the run calls.

Ryan then reviewed our current set up for both the fire department and township. He then reviewed their future needs. One of those future changes would be consolidating the services of both the fire department and township as well as planning for growth in the future. We need additional network drops because there are not enough in the building.

- We'd like to move to the cloud for our data center instead of on-premise storage. Storing in the cloud is the way of the future. It is always up to date. With that, we are looking at Office 365.

Ryan then reviewed some costs associated with the various proposed items.

- We met with a company that would manage the services that was recommended to us by Rick Monroe.

Eric then confirmed that everything is going cloud based. Our e-mails would be in compliance once the trustees begin using their township e-mails. He would be able to do for us most of what the management company is offering. The reason we have two cable inputs because back in the beginning, the fire department wanted to keep theirs separate. I do believe you will pay more with the fire department's proposal than currently. Bev confirmed that the cost would drastically increase for the township. Eric didn't disagree with what the fire department had to say, but is it worth the cost for the township and would the township gain anything? It would be possible to drop one of the cable fees now and split it between the two and it would only take a phone call.

**RESOLUTION #18-01-17 – Adjourn**

**Moved** by Pavlick, second by Zieja to adjourn the meeting at 6:32 p.m. Roll: Pavlick, yes, Conley, yes; Monroe, yes.
