Sheriff's Department – Trustee Monroe thanked Captain Kevin Ross, a deputy with the department for 28 years, and Sargent Pries, a deputy with the department for just over 27 years, for being at tonight's meeting with an update of items of interest to the community. Concerns suggestions can be called in or emailed to the sheriff's office and they will look into it. Communications Center number is (330)725-6631. First, Ohio Unemployment Fraud is increased. Go to ODJFS website for concerns and questions and follow the prompts. Second, be aware there are many scams involving gift cards to pay bills. Third, catalytic converter thefts are up in the area. Last, York Township will be the first townships to use the electronic speed signs to collect data, monitor speeds, and try to get people to slow down. These units can be secured to the speed limit signs and should be deployed soon. Roger Mittler asked if the Sheriff wanted input as to where these signs could be beneficially placed in the township. Yes, they will try and be responsive to suggestions, and problem areas and specific time of concern are appreciated.

Town Hall, Zoning, Cemetery-

Census annual Boundary and Annexation survey –Ours are the same as last year, I emailed them and noted our boundaries have remained the same.

Cemetery – We had three burials last month

6802 Norwalk Road- we have cited the property for an extreme amount of trash bags miscellaneous junk on property. We have received several calls on this situation.

Emerald Run Street Light – has anyone called to report it? A resident has called twice to inquire about the streetlight not working. Not yet, Trustee Monroe will call.

Board of Elections Paperwork – Dorothy filled out the paperwork for the May voting instructions and booth delivery. Trustee Monroe has been listed as the emergency contact.

Rumpke- Dorothy handled many questions from people surprised by the appearance of trash cans after they had opted out. Many people were not aware the level of competition for 100 spots and that it was first come first serve. We had 161 applicants. The final list was posted on the website. Dorothy spent 2/3rds of her day dealing with people and trash concerns. We have a resident looking to obtain a smaller 65 gallon container. She was told this is not possible by Rumpke. Trustee Pavlick confirmed the trash contract stipulates people are allowed to trade to a 65 gallon trash can. Dorothy sent the information to Sarah Mathews.

Dorothy reminded the trustees that Shale Creek HOA sent additions to their by-laws. They are still waiting for a response from the township. When Dorothy sent the information to the prosecutor's office they returned an opinion, but the trustees have not returned any correspondence about the proposed bylaws to the HOA Legal persons. Dorothy stated this is a legal matter, and she suggests the trustees talk to the prosecutor to get legal advice in executing their response. Trustee Pavlick will stop by the prosecutor's office for advice.

Dorothy handed the trustees three site review applications:

1. Charity Reed – Norwalk Road – the garage was partially collapsed in the Mallet Creek District, and now they want to put up a different pole construction garage behind the house. A portion of the first garage was in the road right of way. The Zoning Commission needs to provide the setbacks on this property since it is in the Mallet Creed District.
2. Joe Mittler – Norwalk Road. He currently has two storage units and would like to add two more. He is splitting his business into two divisions due to growth. Increased storage needs would be handled with two additional buildings. Part of the one with an office and septic will be used for his business. The balance of the buildings will be rental units. The original business will continue the lawn and landscapes in their current Stone Road location.
3. Dan Caudell – Norwalk Rd. Mr. Caudill is requesting to put up four more storage buildings. Just the standard rental units.

Fiscal Officer Margaret (Peggy) Russell

Community Survey Sample – Chief Creamer and Lt. Phil Geneaux are working on the community survey to facilitate input on the direction the township would like to see the Fire Department move in terms of growth and service.

Trustees

Trustee Zieja – will attend a Health Department Meeting on Monday. He is still working on the office assistant job description.

Trustee Monroe – Road Bid went out two weeks ago. Current protocol only advertises once and bids should be opened March 5, 2021.

Cornerstone Surveying – Spoke with Susan Eichhorn about surveying the green space areas in the township. She originally hoped to do that this winter, but has been very busy. We may have to look into another survey company to get this done.

Round about Drainage – Project is being sold on August 12 of this year, and will hopefully fix the drainage issues reported over the years.

Mailboxes – spoke with Tim Joyce at Fabrizi about replacing the mailboxes being hit with the snow plow. He has done a good job replacing those hit with the plow. Mailboxes that have damage due to heavy snow are not eligible for replacement.

Norm Hinman – offered to share the barn Parks is looking to build with the Historical Society on their lot. They do have some room.

Columbia Gas – Karen Bayless called to see if we had any concerns or inquiry about capping a well in the Livia Lane neighborhood. We do not have any protocol in place to advise.

Weed Pro – we have not been happy with their service, so Trustee Monroe will look for other bids.

Fire Station Bay Heaters – Trustee Monroe looked into quotes to replace all the tube heaters in the bay. Many are not working properly. Two do not work at all. Some run constantly. They are about thirty years old. RJ Heating and Cooling and Gene's Refrigeration had bids close in scope of materials and price, however Gene's came in lower. **Motion** by Trustee Monroe to hire Gene's Refrigeration to replace all the tube heaters in the fire bay for \$10,746.00. Second by Trustee Zieja. Roll: Monroe, yes; Pavlick, yes; Zieja, yes.

Trustee Pavlick – Fabrizi – Trustee Pavlick communicates with Tim Joyce on a regular basis regarding the snow plow needs of the township. He has explained to many residents who have lost mailboxes in the past months the mailbox replacement protocol. If the plow hits the mailbox then the township replaces it, if the snow destroys the mail box it is the homeowner's responsibility. If a resident is concerned about their mailbox holding up, they could place a deflective wall/barrier to shield the unit from heavy snow hits. Many of the plastic mail units need additional fortification to hold up to heavy, wet, snow being pushed off roadways.

Regular Meeting February 25, 2021

Trustees – Chairman Richard Monroe, Todd Zieja, William Pavlick,
Fiscal Officer Margaret (Peggy) Russell

Medina County Engineer – Spoke with Steve H. from the engineer's office who suggested we move the Branch Road OPWC culvert project back one year. He feels we will get a better price, maybe by 10%. We need 240 yards of dirt trucked in to build up the area before construction can begin. Also, we have three property owners who must grant permission in road right away before the project can start. It is a small area for each property. All three together should probably cost less than \$1,000.00 for the township to make appropriate arrangements. Steve will draw up the paperwork, and he and Bill together will contact each property owner to explain the scope of the work and the release form. Trustees agreed to postponing the project until next year. It should still qualify for OPWC money. Trustee Zieja and Monroe do not have any problems with the delay. Trustee Pavlick will let the Engineer's office know Monday.

Fiscal Officer

Thanked Township for OTA Conference education. Got great information on roads, UAN updates, policy information on Human Resources, grant information and taxes. This fulfills the continuing education requirement for the year.

Thanked Township for sending her to Grant Writing and Grant Management continuing education. Learned some great information that will be useful in the future for obtaining and managing grants for the township.

Medina County Engineers – York Township Inventory as of December 31, 2020 submitted to the Engineer's office. A copy of the inventory was placed on the trustee's desk and in the Fire Chief mailbox.

Westfield Bank- Spoke with Christopher Anzevino about what Westfield can offer the township for government banking. Interest rates are very low right now. They do offer sweep accounts that the township used to participate in when we banked with First Merit, however Huntington does not offer this service. Both Huntington and First Merit have CDARS, which are baskets of CD's. The money market at Westfield offers a better interest rate than STAR Ohio. The township is not permitted to invest in mutual funds. As an FYI, Fiscal Officer Russell reviewed the government fund accounting which is reflected in UAN. By ordinance, we must separate income and expenses for each fund. The General Fund can pay for any legitimate expense for any fund. However funds like the 2191, 2281, and 2901 Funds for Fire/EMS levy and other revenue can only be used to receive and spend money specifically dedicated to these funds. The funds held in these accounts cannot be used for roads. Of the \$2.9 million the township holds at the moment, about 2 million belongs to the fire department. Parks holds about \$150K, and the General Fund which pays administration, fringe benefits, zoning, cemetery and other expenses as determined by the board holds about \$500K. We have four Road's Funds for the various income streams totaling roughly \$300K.

Roads Levy paperwork was turned into to the Board of Elections. I asked the prosecutor, and the Director at the Board of elections about including the actual township road mileage in the levy language in the hopes residents would understand that the township is responsible for maintenance and repairs of a little over 25 miles of roads. We also have county roads and State Routes that run

through our township that are handled by different agencies. They were not able to include the language conveying our actual responsibility in the levy language. Fiscal Officer Russell felt we should be working on a fact sheet to educate residents about the upcoming levy.

Public Comment

Roger Mittler – Questioned whether the Trustees had discussed moving forward with his suggestion of looking into the formation of a five year plan, and will citizens be invited to part of the committee. Trustee Zieja does not have a problem with moving forward with the plan, but he would like to wait until the May Road's Levy results are in. He is totally in favor or having community totally involved. Roger said he will keep asking.

Andy Kave – Remembers years ago being invited to be involved at the meetings. Having been told he complains too much he wanted to remind Trustees it is part of the job to listen to complaints from the public. He is also still in favor of a lottery for the opt out. If the process can be changed as to how opt out is managed every year, then he feels the lottery idea should be revisited. Trustee Zieja stated the prosecutor made the decision. Opt outs are worded as a first come first serve list, and that must be adhered to. How the list is formed – in person, email, etc. is subject to change. Kave stated the current system is unfair to working people, elderly and infirm. Trustee Pavlick stated we would do each subsequent year the same as we did this year.

Motion to Adjourn by Zieja, second by Pavlick. Roll: Monroe, yes; Pavlick, yes; Zieja, yes.
Meeting adjourned 8:31p.
